## NEWS RELEASE

### CSAH 39 – PAVEMENT PRESERVATION AND RESTRIPING SAFETY PROJECT (from Hart Blvd. in Monticello to Odean Ave. in Otsego).

Construction will begin **Tuesday, September 17, 2019** and will be completed in mid-November. Work will include pavement preservation and re-striping for a continuous two-way center left-turn lane (TWLTL). The project will also include minor widening at intersections to maintain existing right-turn lanes. All work will be done within the existing right-of-way.

The continuous TWLTL will provide spatial separation between opposing lanes of traffic, reducing head on and sideswipe collisions. In addition, due to the density of driveways, restriping will also remove left turning vehicles from the through lane; improving flow, road efficiency and reducing rear-end collisions.

• 10' WIDTH AT RIGHT TURN LANES

Knife River Corporation of Sauk Rapids, MN will begin the work **SEPTEMBER 17, 2019**. A slight change is the entire project will now be constructed with detoured traffic (see detour map attached). Local traffic will have access to their homes and businesses but may encounter delays as the road is reduced intermittently to a single lane during daytime hours.

If there are any questions, please contact Chad Hausmann, Assistant Highway Engineer, [chad.hausmann@co.wright.mn.us](mailto:chad.hausmann@co.wright.mn.us), 763-682-7387.
